Report of Director and School Improvement Council

Cope Area Career Center (CACC) continues to strive for an atmosphere of excellence with its award winning Career and Technology Education Programs. CACC has maintained an Excellent Report Card rating for the past five years and is a fourth year Palmetto Gold Award recipient. Student achievement, high expectations, and a rigorous and relevant curriculum have been in the forefront of the Center's goals this year. The staff has dedicated themselves to accomplishing these goals.

New program offerings during the past three years have proven to be successful. Student interest in attending the Career Center has increased as new programs are offered and renewed interest in existing programs with 414 students enrolled. Child Development, Building Construction, Mechatronics, and Pre-Engineering have experienced great success in new fields of study and opportunities for students. A few of this year's accomplishments include: partnership with area post-secondary institutions where one hundred and fifty students received dual credit through our middle college in health science, automotive technology, welding classes, building construction, and early childhood education. Students participated in SkillsUSA competition in Greenville, SC, with the largest SkillsUSA membership in the history of CACC. Students competed in cosmetology, law enforcement services, welding, and automotive competition; HOSA students participated in the HOSA competition with district and state winners placing in pathophysiology, job interview, community service, and outstanding chapter award.

Seventy-five percent of the one hundred and four completers received state and national certifications in NCCER, CPR, First Aid, Certified Nursing Assistant, National Health Care Foundation, and South Carolina Cosmetology License.

As we continue to increase rigor and relevance while preparing students for the global, high-tech workplace, the master schedule reflects new course offerings for next year in Digital Electronics. Challenges set before us for next year are increasing reading, writing, and math skills which will in turn help students be successful in Career and Technology Education courses, post-secondary education, the military, and the workforce.

Cope Area Career Center served as a pilot site this year for end of course testing in welding, building construction, pre-engineering, and the health science programs. We welcome you to view our newly developed website and brochures at [www.orangeburg4.com/cacc.php](http://www.orangeburg4.com/cacc.php).
